Dear Mr. President,

As members of the Congressional Biofuels Caucus, we write to express our concern with reports that the Environmental Protection Agency (EPA) is considering an appeal of the unanimous 10th Circuit Court decision in Renewable Fuels Association et al. v. EPA. The 10th Circuit Court held that EPA exceeded its authority by inappropriately granting refineries free-standing Small Refinery Exemptions (SREs) that exempted them from blending requirements under the Renewable Fuel Standard (RFS), rather than granting extensions of existing exemptions as intended by Congress.

EPA’s rampant and inappropriate use of SRE’s in recent years has reduced demand for American biofuels and weakened the RFS. We ask that you direct EPA to respect the unanimous court decision by applying its ruling nationwide and end the agency’s destructive interpretation of the RFS. Farmers and biofuel producers are hurting as a result of decisions made by EPA and action by your office is needed to uphold the law in a fair and consistent manner.

Sincerely,

Collin C. Peterson
